Inappropriate media	Anything with inappropriate content or pictures
Electric hair tools	Curling Irons, Blow dryers, straightening irons, etc. These things are hard on church electrical systems
Expensive electronics	Or anything super valuable or irreplaceable. NOTE that LEAD222 is not responsible for any lost or stolen items
Too much cash	Just be smart! What you bring make sure is safe. You WILL NOT bring it with you on your ministry sites.

We hope this helps give both practical items and some of our rational why. We in LEADMissions want you to be fully successful in seeing maximum Kingdom fruit through your ministry on our trips. Right-sizing everything for packing and planning will help! These policies also help ensure that while we are guests in host churches and partners with other ministries on their 'turf,' that we adorn the Gospel and these ministries. Something as simple as clothing won't add much of anything to Kingdom effectiveness but it has the potential to detract from it greatly. Thank you for your understanding and alignment with everything here.

See you soon!!
